

Quarterly Dataset search: January-March 2024
Columbia Basin Fish & Wildlife Library

Anderson, C. W., and D. R. Wise. 2024. Input and output data for the Precipitation-Runoff Modeling System (PRMS) used to predict seasonal water availability during 2000-2015 in the Upper Klamath River Basin, Oregon and California [Dataset]. U.S. Geological Survey. <https://doi.org/10.5066/P9P6IY21>

Carlson, S., R. E. Ryan, R. C. Johnson, A. M. Sturrock,, R. A. Lusardi, and S. M. Carlson 2024. Seventy years of diminishing biocomplexity of California Central Valley hatchery steelhead, *Oncorhynchus mykiss* [Dataset]. Dryad. <https://doi.org/10.6078/D11D94>

Fonstad, M. A., J. J. Major, J. T. Dietrich, G. W. Gordon, C. M. Cannon, and J. E. O'Connor. 2024. Orthophotograph of the Columbia River between Portland and The Dalles, Oregon, acquired in 1935 [Dataset]. U.S. Geological Survey. <https://doi.org/10.5066/P1ELGYBG>

Hance, D. J., R. W. Perry, J. M. Plumb, and K. F. Tiffan. 2024. Daily and annual abundances of natural- and hatchery-origin age-0 fall Chinook salmon (*Oncorhynchus tshawytscha*) passing Lower Granite Dam, Washington 1992-2021 [Dataset]. U.S. Geological Survey. <https://doi.org/10.5066/P1EKDXW3>

Hess, J., B. M. Deacy, M. W. Rub, D. M. Van Doornik, J. M. Whiteaker, J. K. Fryer, and S. R. Narum. 2024. Visual and genetic stock identification of a test fishery to forecast Columbia River spring Chinook salmon stocks 2 weeks into the future [Dataset]. Dryad. <https://doi.org/10.5061/dryad.xwdbrv1md>

Holloway, J. M., B. N. McGee, J. F. DeWild, and C. J. Berry. 2024. Water chemistry data from the Big Creek and Monumental Creek tributaries of the Lower Middle Fork Salmon River, Idaho, 2021 [Dataset]. U.S. Geological Survey. <https://doi.org/10.5066/P9LEVH2K>

LoScerbo, D. 2024. Physiological condition and salinity preference in freshwater migrating juvenile sockeye salmon [Dataset]. Dryad. <https://doi.org/10.5061/dryad.dv41ns25p>

Moravek, J., T. Soto, J. Brashares, and A. Ruhí. 2024. Restored off-channel pond habitats create thermal regime diversity and refuges within a Mediterranean-climate watershed [Dataset]. Dryad. <https://doi.org/10.5061/dryad.hdr7sqvqq>

Pearse, D., H. Nuetzel, D. L. J. Vendrami, A. K. Beulke, E. C. Anderson, J. C. Garza, and D. E. Pearse. 2024. Genetic parentage reveals the (un)natural history of Central Valley Hatchery steelhead [Dataset]. Dryad. <https://doi.org/10.5061/dryad.fttdz091g>

Willis, S., K. D. Coykendall, M. R. Campbell, and S. Narum. 2024. Contrasting patterns of sequence variation in steelhead populations reflect distinct evolutionary processes [Dataset]. Dryad. <https://doi.org/10.5061/dryad.qfttdz0gg>

Zillig, K., J.-C. Bambou, T. Loyau, C. Trefeu, D. Feuillet, D. Beramice, B. Bocage, D. Renaudeau, and J.-L. Gourdine. 2024. Effects of acclimation temperature and feed restriction on the metabolic performance of Green Sturgeon [Dataset]. Dryad. <https://doi.org/10.25338/B8HS83>

Zillig, K., A. M. FitzGerald, R. A. Lusardi, D. E Cocherell, N. A. Fangue 2024. Intraspecific variation among Chinook salmon populations indicates physiological adaptation to local environmental conditions [Dataset]. Dryad. <https://doi.org/10.25338/B8P63W>
